

IMPORTANT SECURITY INFORMATION

SCORE INTERNATIONAL is proud to present the 41st annual Tecate SCORE Baja 500 in Ensenada, Baja California, Mexico on June 5-7, 2009.

In a continuous effort to provide the maximum security and safety to all participants, sponsors and spectators attending the event, SCORE has conducted meetings with Federal, State and Municipal law enforcement agencies to arrange the necessary conditions to assure a safe and incident free race.

It is important to mention that thanks to the support of the authorities, the 2008 and 2009 SCORE races in Baja Mexico reported no incidents related to security issues. The various law enforcement authorities have agreed to implement the same security measures as in the past with the same amount of security personnel.

However, we urge you to use common sense while traveling in Baja Mexico.

- Travel in caravans, during the day and always observe the traffic and speed signs.
- Carry a cell phone, and in case of an emergency call 066, which is the equivalent of USA 911. A bilingual dispatcher will take your report and send help.
- Always carry a valid driver license along with an automobile insurance policy issued for coverage in Mexico. If you are involved in an accident, immediately call one of the adjustors listed on the policy.

Please note that starting on June 1st 2009, all United States citizens returning back into the USA, will be required to present a valid US passport. A birth certificate or driver license will be no longer accepted as proof of citizenship.

Have a pleasant and safe race in Mexico!
